

5 VIDEO DOORBELL FEATURES TO LOOK OUT FOR

ONE PRODUCT HAS THEM ALL

PRIVACY

If privacy is important to you, look for products that do not collect behavioral patterns or harvest information for the purpose of selling out to big data companies or groups.

NETWORK RECORDER READY

A video doorbell that can be connected to a network recorder means you're not stuck with a "cloud" only option and have flexibility.

HOME INTEGRATION

Procuring a video doorbell that is compatible with well-known home automation platforms will pay dividends. Connect with the essentials & nothing else. Futureproofing tomorrow starts with today.

APP FLEXIBILITY

Struggling with way too many apps? Want to see video all doorbell streams thru other apps? Dinger works with all IC Realtime apps and other VMS applications. Yes, It's that simple. Ready, Set, WOW.

SIMPLE INSTALL

A DIY friendly video doorbell is nice. An Integrator friendly product is twice as nice. A video doorbell that give you everything is pure bliss! Have your cake and eat it too with DASH by IC Realtime today.
